

ellumière™

AUTOMATIC LIGHT SENSOR

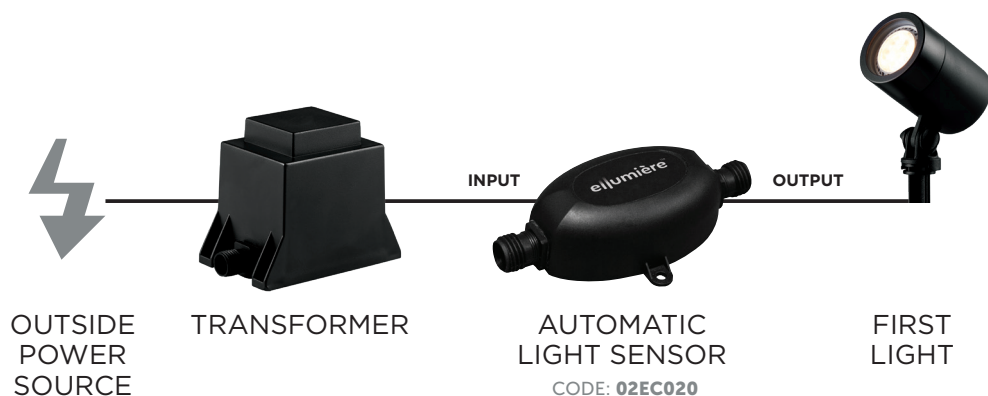

FITTING INSTRUCTIONS

For peace of mind, convenience and total control this sensor will automatically switch your Ellumière Garden Lighting System On & Off for you.

The options are Dusk til Dawn', 4 hours or 6 hours... the choice is yours.

STEP 1

Position waterproof sensor so it's exposed to daylight, connect cable from transformer to the 'Input' side of sensor and the cable from the 'Output' side to your first light.

www.ellumiere.co.uk

STEP 2

Choose your preferred timer period.
SELECTOR – Underside (Selector circled)

4 HOURS

Green LED light will illuminate

6 HOURS

Blue LED light will illuminate

DUSK TO DAWN

No LED will illuminate

FOR THE FULL RANGE GO TO WWW.ELUMIERE.CO.UK

Thank you choosing the Ellumiere Lighting, ENJOY!
